Mamen and Kylie

About some months ago, two ladies started coming to the playground with some long sticks, at first we were confused, but then they told us that they'll be always in there, in case we want to play some games. They asked us if we wanted to and we agreed. They have lot of fun and exciting games and we love spending our playground time playing with them. We usually always walk and talk on the playground, honestly it turned up boring and I'm glad we can do other things now. There are also a few of sports to play if you're bored; football, basket, volley... so everyone can enjoy . It seems like the highschool is starting to improve a lot of things and I think that made all of us so happy. We are also getting new trips and cool things to motivate us, so we can learn with more exciting ways, not only with books and that kind of things, that most of us find a bit boring.

TRIP TO THE MOUNTAIN

On the 21st of December, the 2nd ESO went on a school day trip to the mountains, in Cercedilla. The name of the mountain we climbed is "El Mirador de los Poetas". It usually takes three hours to get to the top of the mountain. At the top, there is a viewpoint.

At the top there was a lot of fog, we couldn't see anything because of the fog. While we were going down, two students almost fell down because the ground was wet (it had been raining before).

In the mountain there was a lot of snow, so the students started a snow fight. After throwing snow at each other for a while, we continued descending until we arrived back in the town of Cercedilla. Cercedilla is a beautiful town in the NorthWestern part of the Madrid community. It is famous for its ancient mountain buildings which date back to the late 19th c.

Cercedilla is a cultural spot since many poets and writers settled down there. It also has a ski museum worth visiting.

ESQUI TRIP

I'm Nico Hernandez and I'm going to give you a brief summary of the ski trip.

The first day of skiing was the most complicated because people had to get used to their schedules.

When the bus arrived at the slopes, we had an incredible feeling to know that we were already there and that we were going to start this experience.

After several days of skiing, the day of Caldea arrived. At the end of the ski day, we took our things and the bus took us to Caldea, where we could enjoy great thermal waters, spas, saunas and many more things

The last day was the longest due to our trip back home and since it was the return and nobody wanted to leave, everything became harder and longer.

When we arrived in Madrid, we were received by our parents and we left to our houses.

It was a fantastic travel!
